# A Valued Member of the RWC Family of Brands

RWC's family of innovative brands are designed to make our customer's lives easier by working seamlessly with each other and providing consistent quality across the jobsite. For decades, HoldRite has been in the field helping contractors improve efficiency and overcome challenges with new innovations.

We own our manufacturing process from concept to delivery and strive each day to ensure the quality of our products. HoldRite products have been designed and manufactured in the USA since 1982.

HoldRite has created a national footprint with strategically placed locations across the United States. With allied resources in Georgia, Alabama, Nevada and California, HoldRite is able to distribute patent-protected products to consumers in North America.

**Developing engineered solutions that save time on the job site since 1982.**

In 1982, Master Plumber George Hubbard designed a pipe support solution (the HoldRite 101-18) to replace the time-consuming and labor-intensive method of cutting blocks of wood for every job. Hubbard's invention revolutionized plumbing in North America by ushering in the plumbing methodology of secondary pipe support.

Today, HoldRite is an industry leader in products and services including secondary pipe supports, acoustic noise and vibration plumbing solutions, sleeving and firestop systems, equipment support, water heater accessories, and drain waste and vent (DWV) solutions.

Understanding your perspective has always been in our DNA. Even though we've evolved into an international company and recognized industry-leading brand, we know our value comes from providing superior products and services for building projects— without increasing costs.

Thank you for giving us the opportunity to pioneer new products and transform the plumbing industry together.

# Pipe Supports

HoldRite manufactures a large range of pipe supports for several applications and pipe types, including in-wall, in-slab and overhead supports. These engineered solutions are the safer, more reliable alternative to field-devised supports and help contractors maximize productivity with quicker installations and versatile designs. HoldRite also offers noise and vibration isolation solutions, which integrate with pipe supports for a professional installation with superior protection against plumbing noise and vibration disturbance.

# Liners & Pads

## Silencer™ Acoustic Liner

- Lab-tested rubber isolation liner
- Ideal for sound-rated and isolation applications for copper, PEX, CPVC, PVC, iron pipe, ABS and cast iron
- Attaches to loop hangers and HoldRite™ Stout Bracket
- Acoustic noise reduction data available

Part number	Width	Box qty
270	3/4 in.	50 ft. Roll
271	2 in.	25 ft. Roll

## Silencer™ Acoustic Felt Liner

- Isolating felt is used for eliminating dissimilar metal contact and provides minimal sound and vibration isolation

Part number	Size	Box qty
272-2	2 in. x 1/4 in. x 25 ft.	25 ft. Roll
Felt-100	2-1/4 in. x 1/8 in. x 100 ft.	100 ft. Roll

## Silencer™ Neoprene Waffle Pad

- Lab-tested Neoprene vibration isolation waffle pad
- Ideal for riser clamps or equipment isolation
- Minimizes noise and vibration transfer at piping stacks and risers
- Acoustic noise reduction data available

Part number	Size	Box qty
274	2 in. x 2 in. x 3/4 in.	180 (sold in sheets of 36)
275	2 in. x 2 in. x 7/8 in. (includes bearing plate)	100
275-T	2 in. x 2 in. x 7/8 in. (includes bearing plate with tabs)	100

## Silencer™ Riser Pad

- Ideal for riser clamps or equipment support
- Minimizes noise and vibration transfer at piping stacks and risers
- Acoustic noise reduction data available

Part number	Size	Box qty
276	2 in. x 2 in. x 1/4 in.	50
278	2 in. x 2 in. x 1/4 in. (includes bearing plate)	50

# Inserts

## Tube Isolator Insert

- Ideal for pipe support with HoldRite® #103 series, #121 series, #700 series and #110-R brackets
- Compatible with PEX, copper and CPVC tubing
- Provides a tight grip to tubing
- Often used at fixture stub-out locations

Part number	Pipe size	Box qty
104	1/2 in. CTS	100
105	3/4 in. CTS	100
106	1 in. CTS	100

## Plastic Through-Stud Tube Isolator Insert

- Ideal for copper, PEX and CPVC tubing
- Isolate tubing from wood framing
- Uses 1-3/8 in. hole
- Positioning and dissimilar metal isolation for copper, CPVC and PEX tubing

Part number	Pipe size	Box qty
161	1/2 in. CTS	50
162	3/4 in. CTS	50
163	1 in. CTS	25

## Silencer™ Through-Stud Acoustic Tube Isolator Insert / Suspension Clamp

- Ideal for sound-rated and isolation applications
- Compatible with copper, PEX and CPVC tubing
- Lab tested
- Through-stud insert/suspension clamp, dual purpose design
- Integrates directly with Stout Bracket or EZ-Strut bracket
- Acoustic noise reduction data available

Part number	Pipe size	Box qty
261	1/2 in. CTS	50
262	3/4 in. CTS	50
263	1 in. CTS	50
264	1-1/4 in. CTS	50

## Flame-Rated Tube Isolator Insert

- Through-stud and bracket isolator
- Ideal for metal studs with PEX, copper and CPVC tubing
- Meets UL 94 V-2 standards
- Integrates with most HoldRite™ galvanized brackets
- Fits in 1-3/8 in. or 1-11/32 in. holes

Part number	Pipe size	Box qty
404-R	1/2 in. CTS	100
405-R	3/4 in. CTS	100
406-R	1 in. CTS	100

# Inserts

## Flame-Rated Gray Tube Isolator Insert

- Positioning and dissimilar metal isolation for copper, CPVC and PEX tubing
- Meets UL 94 HB requirements

Part number	Pipe size	Box qty
424	1/2 in. CTS	50

# Firestopping Sleeves and Accessories

From initial construction to firestop system maintenance, find what you need for the job in HoldRite's extensive suite of firestop solutions. UL Listed for fire, water and smoke, HydroFlame products provide a water seal while also acting as a barrier to guard against the spread of fire, smoke and gases.

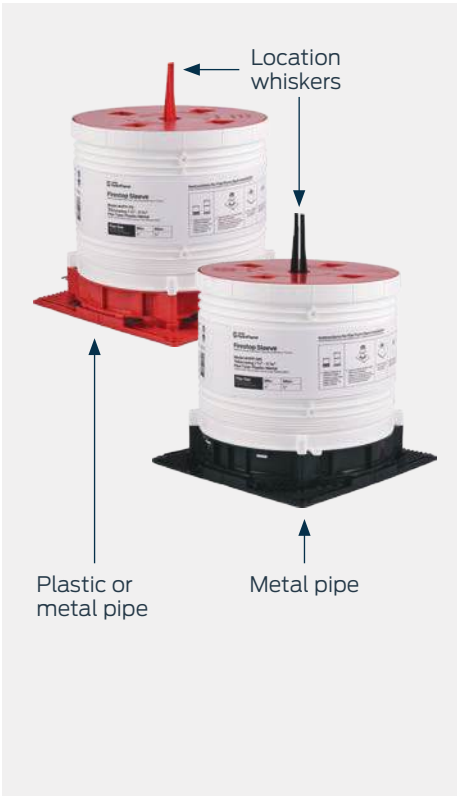

For intumescent firestopping systems, choose from an array of options to best meet your needs: cast-in-place sleeves, sealants, wraps, collars or putty pads. For added watertight requirements, you can also get water dam and water module accessories that are compatible with our firestop sleeves.

# Restraints

## QuickStrap Expansion Tank Mounting Bracket

- Secures expansion tank to wall and takes weight load off pipes
- Galvanized and stainless steel construction

Part number	Size	Box qty
QS-U-C	Up to 5 gal/up to 13 in diameter (a contractor pack product)	15

## QuickStrap Water Heater Restraint

- The most tested and recognized water heater seismic restraint
- Galvanized water heater strap in box

Part number	Size	Box qty
QS-120	Up to 120 Gal	12
QS-50	Up to 80 Gal	15
QS-50-P	Up to 80 Gal	15
QS-50-D	Up to 80 Gal	15
QS-50-S	Up to 80 Gal	15

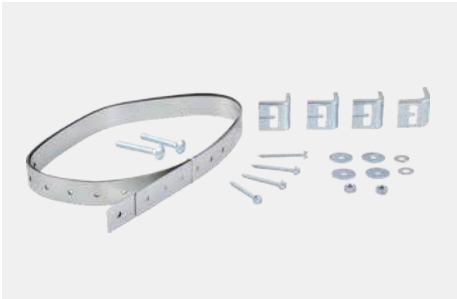

## Quick Belt Water Heater Restraint

- Water heater seismic restraint kit
- Includes hardware
- Soft-belt style water heater strap

Part number	Size	Box qty
QB-50-F	Up to 80 Gal	20

## Galvanized Steel Water Heater Restraint

- Rated up to 80 gallons
- Self drilling lag bolts
- Patented adjustable restraint secures at the front-center of tank

Part number	Box qty
HR-80-180	15
HR-80-360	15
