

Wall-Mount Sensor Foam Soap Dispenser

WASH WITHOUT WORRY OR WASTE

Did you know foam soap is friendlier for the environment, users and your budget? Guests get more sudsation with each wash, while requiring less water and additional pumps in the process.

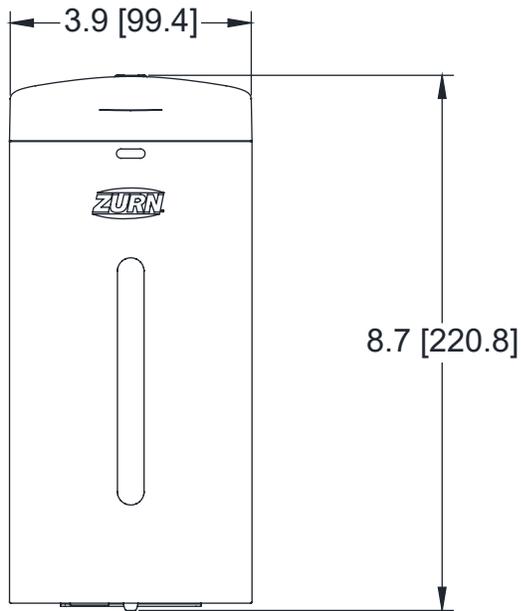

Our Zurn Sensor Foam Soap Dispenser activates hands-free and intuitively. Even better? The universal design works for your sanitizer solutions too. The stainless steel construction withstands commercial restroom demands, while the battery operation speeds up install and swapouts.

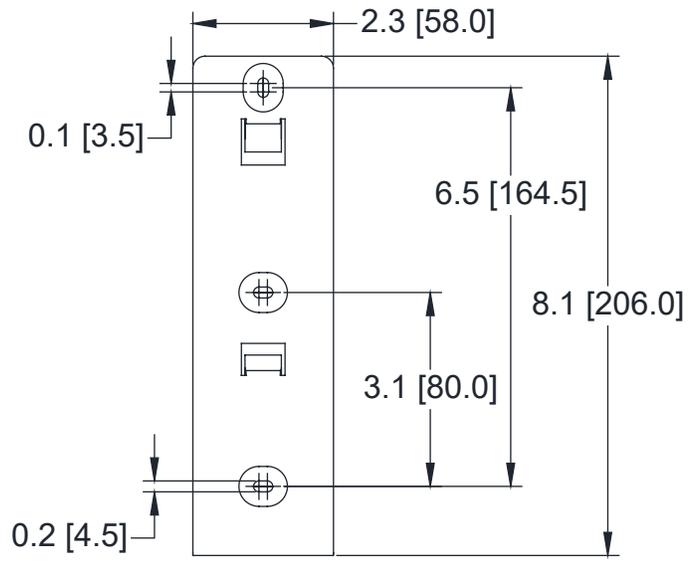

Z6900-FSD-WM

- Foam action uses less cycles to distribute full volume
- Hand sanitizer option allows you to swap out solutions within your facility
- Precise touchless operation reduces the opportunity for germ transference
- Adjustable sensor range ensures accurate user detection (2" - 6")
- Clear refill-indicator window makes it easy to maintain levels
- Heavy-duty stainless steel with a brushed chrome finish keeps lasting luster over time
- Lockable unit deters theft and vandalism
- Adjustable dispenser volume accommodates your restroom setting
- Foam hand soap or sanitizer refills are sold separately
- Requires 6 AA batteries, included
- 3-year warranty
