

# Connected Hardwired Sensor Flush Valve Retrofit Kit

Ready for Better. We've Made it Easier.

*Compatible with ZEMS SKUs except for ZEMS-IS*

Connect your standard hardwired ZEMS flush valve to plumbSMART™ without replacing the fixture. The PEMS6000-RK-W1 Retrofit Kit simplifies the entire system upgrade, so you can start benefiting from insights.

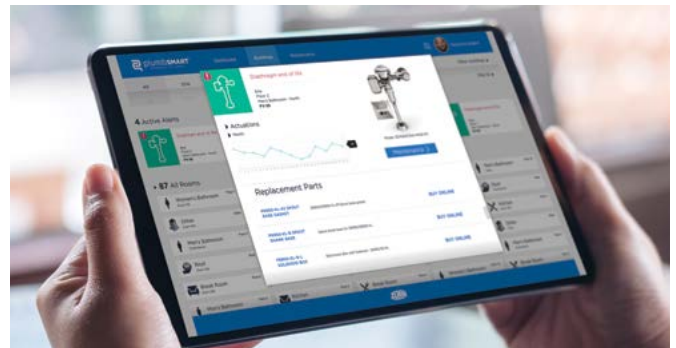

We're all about connecting you to a better experience. We designed our retrofit kit, so you can upgrade using less of your time and less of your budget.

## Better Experience

Once you're connected, gain valuable insights through the secure web portal, plumbSMART, no matter what you're doing.

- Wireless monitoring of flush valve actuations and usage patterns
- Water consumption metrics and trends
- Real-time preventative maintenance alerts 24/7

Note: ZEMS-IS is not compatible.

*Connect a better experience.*
