LOCATION NOTICE

Training venues are yet to be finalized.
Registered participants will receive an email with the exact location prior to their scheduled training date.

We will cover the basic operation of IAQ products, install basics and finer points. Startup and commissioning processes will be defined. We will also cover when IAQ products should be chosen to correct or prevent air quality problems in the home. This class is a must for home comfort advisors to find problems and offer solutions prior to the homeowner discovering the problem. By adding IAQ to your offering profits will soar with little added labor.

TOPICS COVERED

- Reduce airborne dust, allergens, and other indoor pollutants
- Improve ventilation for cleaner, healthier indoor air
- Help control excess humidity and moisture-related comfort issues
- Match the right IAQ solution to the problem in the home
